

SWEDISH ORPHAN BIOVITRUM

PRESS RELEASE 2010-05-06

Swedish Orphan Biovitrum presents first positive Kiobrina® clinical phase II data

Stockholm, Sweden – May 6, 2010 – Swedish Orphan Biovitrum (STO: BVT) today presents as a poster clinical phase II results from the first study showing that Kiobrina® added to infant formula significantly improve growth of preterm infants as compared to placebo after 1 week of treatment. The poster is presented at “The Power of Programming 2010. International conference on developmental origins of health and disease” in Munich, Germany.

Please find the poster enclosed.

“This is an interesting project and Kiobrina holds a great opportunity to fill a medical need in neonatal care. Based on these results and those from a second clinical phase II trial of Kiobrina in pasteurized mother’s milk we are now planning for a phase III study in preterm infants”, said Peter Edman, CSO of Swedish Orphan Biovitrum

About Kiobrina

Kiobrina is a recombinant human bile-salt-stimulated lipase (rhBSSL) developed by Swedish Orphan Biovitrum, aiming to improve growth and development in preterm infants. The rationale for adding rhBSSL to pasteurized breast milk or infant formula is to restore the natural lipase activity level that is either lost on pasteurization or totally absent in formula.

About Swedish Orphan Biovitrum

On January 14, 2010, Biovitrum AB (publ) completed the acquisition of Swedish Orphan International Holding AB and created Swedish Orphan Biovitrum – a leading company focused on treatment of rare diseases.

Swedish Orphan Biovitrum is a Swedish based specialty pharmaceutical company with an international market presence. The company is focused on providing and developing orphan and niche specialist pharmaceuticals to patients with high medical needs. The portfolio consists of about 60 marketed products and an emerging late stage clinical development pipeline within rare diseases. Swedish Orphan Biovitrum has pro-forma revenues 2009e of about 2 BSEK and approximately 500 employees. The head office is located in Sweden and the share (STO: BVT) is listed on NASDAQ OMX Stockholm.
