

PRESS RELEASE

Stockholm, Sweden, 16 January 2020

Sobi's full year 2019 revenue and EBITA higher than previous estimates

[Swedish Orphan Biovitrum AB \(publ\)](#) (Sobi™) (STO:SOBI) announces today that revenue and EBITA for the full year 2019 were higher than previous estimates. Full-year revenue was approximately SEK 14,150 – 14,250 M and EBITA approximately SEK 6,200 – 6,300 M, excluding restructuring costs and excluding impact from the acquisition of Dova Pharmaceuticals. The main reasons for the better performance are:

- Significantly higher sales of Synagis following increased demand as a result of improved commercial effectiveness and wholesaler stocking. In addition, sales increased due to a positive Gross-to-Net impact and a more severe RSV season than normal
- Higher Gamifant sales reflecting higher average patient weight and longer treatment periods
- Better performance of Orfadin and other Specialty Care products mainly due to phasing of large orders

The main period of the RSV season spans from the fourth quarter to the first quarter why sales of Synagis shall be evaluated over a full period (Q4-Q1). Gamifant is still in launch phase and continued volatility is expected going forward due to the ultra-rare nature of the disease and the limited patient population.

At the publication of the Q3 2019 report on 31 October Sobi reiterated the outlook for the FY year 2019 published on 17 July 2019. Revenue for the full year was expected to be in the range of SEK 13,000 - 13,500 M and EBITA for the full year was expected to be in the range of SEK 5,300 - 5,500 M excluding restructuring costs and excluding impact from the acquisition of Dova Pharmaceuticals.

Sobi will announce its fourth quarter and full year 2019 report on Thursday 13 February 2020 at 8:00 am CET.
